Made in Taiwan   08.2009×2000

Economy Model TP-6000

Main Features:

- Easy operation, simple maintenance.
- Mechanical outside tension control. Tension can be easily set with a dial.
- Affordable for every budget.

Option

- Stainless steel frame SUS 304
- Short feed sensor
  The sensor will detect whether the strap is at sealing position. If it is not, the start switch can not be activated.

STRAPPING MACHINE

Automatic Strapping Machine for Wide Straps

Enhanced model

Tauris TP-601D Series

The Tauris TP-601D series are enhanced automatic strapping machines for wide straps. With the enhanced features, Tauris is the most powerful machine and the best price/performance ratio product in its class for wide straps general purpose application.

Enhanced Model TP-601D

Main Features:

Reliable and Robust Strapping Head
Robust mechanism design and high engineering standard ensure excellent durability of the products. Use two proximity switches to replace conventional limit switches.

Electronic Tension Control
Strap tension can be adjusted accurately by the simple turn of a dial. Easy operation.

Auto Strap Feeding
Simply insert the strap into the feeding rollers from the coil side of the machine and then push the "reset" button. The machine will automatically feed itself without the need to access to the inside of the machine. Easy strap loading.

Auto Strap Ejector
Loop-eject clears unwanted strap automatically if the machine is accidentally activated without a package. Eliminates downtime.

More Features:

Short Feed Sensor
The sensor will detect whether the strap is at sealing position. If it is not, the start switch can not be activated.

Auto Strap Refeed
The machine will automatically refeed itself if a mis-feed occurs.

✻ SUS 304 stainless steel frame model is on request.

Strap End Ejector
Ejects end of coil. Get the machine ready for the next coil of strap.

Methods of Cycle Initiation
The machine can be started by several methods, such as foot pedal switch, start switch, and photo eye switch.

TP-601L

- Low-table model
- Designed to accommodate bulky or heavy packages
- Other features are the same as TP-601D

TP-601DPT

- Suitable for PET strap
- Suitable for packages needing higher remaining holding force or stored in the place with higher temperature
- Other features are the same as TP-601D
